WILLIAM
JESSUP
UNIVERSITY

FROM THE PROVOST

On behalf of Jessup University, I want to invite you to become a part of Graduate Studies at Jessup. Our Graduate programs equip graduates to be highly competent, principled and innovative leaders. As a result, our coursework is created to provide you with the tools and learning experiences that you need to succeed. We hire faculty who are experienced practitioners, who can help you understand how to put the theories and concepts to work.

Thank you for your interest. I look forward to seeing you on campus!

Sincerely,
Dennis Jameson, PhD

WILLIAM JESSUP UNIVERSITY

William Jessup University comprises of approximately 2000 students who are seeking a fully-accredited education that will be recognized all over the globe. Jessup is one of Northern California's top growing centers for education, cultural events and athletics. The University offers unrivaled access to new state-of-the-art facilities, nationally recognized faculty and a vibrant and diverse community.

ROCKLIN, CALIFORNIA

William Jessup University's main campus is located in the Capitol region of California. With Tahoe in our backyard, San Francisco and the Central Coast down the road, and a Capital City that serves as the heartbeat of California, you can Study Jessup, Play Nor Cal, Love Life.

SILICON VALLEY, CALIFORNIA

Located in the heart of Silicon Valley, William Jessup University's San Jose campus caters to international students seeking to advance their educational goals in an experiential learning environment taught by industry professionals. Students are able to participate in internships or employment opportunities at some of the world's most famous corporations, or even have an opportunity to be part of a start-up company.

“

Jessup not only provides me with a dynamic education built around the innovation and entrepreneurial spirit of Silicon Valley, but also afforded me the opportunity to acquire an amazing paid internship.

GRADUATE PROGRAMS FOR INTERNATIONAL STUDENTS

- MASTER OF BUSINESS ADMINISTRATION (MBA)
- MASTER OF SCIENCE IN COMPUTER SCIENCE
- MASTER OF ARTS IN TEACHING
- MASTER OF ARTS IN EDUCATION
- MASTERS ADVANCEMENT PROGRAM

INTERNSHIPS - CPT & OPT AVAILABLE FOR QUALIFIED STUDENTS

Master of Business Administration

The Jessup MBA equips graduates to be highly-competent, principled and innovative leaders in business and society. The MBA curriculum is relevant, quantitative and applicable for servant-leaders in both for-profit and non-profit organizations; the ethical framework integrated throughout the curriculum makes the Jessup MBA distinct and different on purpose. The substantive and vital management skills of planning, controlling, decision making and organizational leadership are developed and strategically applied throughout the program; moreover, MBA students are challenged within a dynamic experiential learning environment to be effective transformational leaders with a global perspective.

Dr. Steven Strombeck

One of the amazing things about this program is the diversity of my classmates. Within my class, I have people working for Google, Youtube, Oracle... Its a huge benefit being able to network with them.”

Master of Science in Computer Science

The Jessup MS Computer Science program is designed to equip the graduate with the latest computing techniques in the four fields of databases, data analytics, distributed systems and artificial intelligence. Apply the research methods in those computer science fields to design and implement efficient ways and approaches to evaluate projects. Assume a leadership and decision making position in the student's company. As you attend class, you will sit side by side with your classmates who are applying their knowledge at companies throughout the Silicon Valley. What a great way to network!

“The program aligns with what we need to have in our professional lives, both in theory and **practice**.”

Master of Arts in Teaching

The Master of Arts in Teaching is skillfully designed for students seeking to complete educational research and earn a multiple subject or single subject teaching credential for use in public or private school. Taught by scholar-practitioners who possess both academic and practical experience, this one evening a week program efficiently covers 42 units of teaching preparation courses. Built around a cohort model, candidates in the program quickly bond and grow as they learn together. Approved by the California Commission on Teacher Credentialing. We offer credential programs for Multiple Subject, Math, and English.
